Services: Provide planning preconstruction and construction management support for duration of project. Precon services to date resulted in over \$3M in cost savings to the District.

Description: Phased summer projects involving multi-prime contracts and complete demolition of existing systems and replacement with new state-of-the-art systems. Complete new HVAC system introducing AC and BAS Controls, new power distribution, new piping and equipment, new doors and windows, new ceilings, new fire alarm system, asbestos abatement and new construction of district equipment building.

Schedule:

Preconstruction: October, 2014 - March, 2015
Phase 1 Construction Start Date: April, 2015
Phase 2 Construction Start Date: April, 2016
Occupancy Date: September, 2016 and September, 2017

Final Cost: Budget: \$24,000,000
